

Kickstart your career

Opportunities for Master's and PhD Candidates

Quantitative Analytics Program Overview

The Quantitative Analytics Program is designed to provide you with the opportunity to gain comprehensive professional and industry experience that prepares you to work with various analytical models. Wells Fargo hires a number of PhDs and Master's candidates within the following Corporate Risk tracks:

- **The Capital Markets track** deals with mathematical models for pricing, hedging and risking complex financial instruments. Wells Fargo trading portfolios include products in all traded asset classes such as credit, commodity, Equity, FX, Rate, Mortgages, and Asset-Backed Finance.
- **The Risk Analytics & Decision Science track** deals with statistical, econometric, and machine learning/AI models for a variety of applications, including loss and revenue forecasting, credit decisions, financial crimes, fair lending, operational risks, and analysis of unstructured data such as text and audio.

Program Structure and Desired Qualifications

- Full-Time Structure: 24 months (Year 1: training and 2 rotations; Year 2: permanent placement)
- Internship Structure: 10 weeks
- **Full Time Program:** Masters or PhD degree with an expected graduation between December 2024 –June 2025 OR graduated from a PhD program after May 1, 2022 and is currently completing a postdoc
- **Internship Program:** Currently enrolled in a Masters or PhD program with an expected graduation December 2025 or later
- Enrolled in a Master's or PhD program in: Data Science, Statistics, Mathematics, Applied or Computational Mathematics, Computer Science, Economics, Physics, Quantitative Finance, Operations Research, Engineering or related quantitative field
