

SCC SEMINAR SERIES ON DATA ANALYSIS

Chuck Huber, PhD

Associate Director of Statistical Outreach, StataCorp

Friday, January 24, 2020
10:00~11:00AM IN ROOM 102, CALDWELL HALL

Introduction to Stata

In this talk I assume that the audience has never seen Stata before. I introduce the Stata interface, the data editor, the do-file editor, the menus, the dialog boxes, the help files, and the pdf documentation. I then briefly demonstrate how to use Stata to analyze data from cross-sectional, multilevel/longitudinal, and survival studies.
